

Flow - manifold block

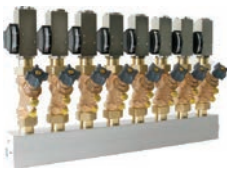

Characteristics

System	Manifold block
Nominal widths	DN 15..40
Media	Water Oils
Pressure resistance	Max. 25 bar
Temperature	-20..+110 °C

Applications

- Flow recording, monitoring, and control in oil, lubrication, and cooling equipment

Device overview

Device	System	Number of measurement points	Nominal width	Pressure resistance in bar	Medium temperature	Page
VB 	Manifold block with integrated valve	1..8	DN 15..20	PN 25	-20..+110 °C	3
VB2 	Manifold block	8	DN 40	PN 16	-20..+110 °C	4
DIS- 	Manifold block	1-10	G 1	PN 16	0..+60 °C	5

Errors and technical modifications reserved.
