

## Product information

## Wireless data loggers GHM DeltaBus

### ACCESSORIES

<b>HD35AP-S</b>	Further copy of the CD-ROM with HD35AP-S basic software for the system configuration, the real time viewing of the measures and the data download. The access to the data is allowed only from the PC where the Data Base is installed. For Windows® operating systems.
<b>HD35AP-PLUS</b>	Advanced version of the HD35AP-S software that provides access to the Data Base from all the PCs connected in the network to the server where the Data Base is installed. For Windows® operating systems.
<b>CP23</b>	Direct USB connection cable with male mini USB connector on the side of the instrument and male A type USB connector on the side of the PC.
<b>CPM12-8P.2</b>	8-pole cable. Length 2 m. 8-pole M12 connector on one side, free wires on the other. For RS485 connection to HD35APS base unit.
<b>CPM12-8P.5</b>	8-pole cable. Length 5 m. 8-pole M12 connector on one side, free wires on the other. For RS485 connection to HD35APS base unit.
<b>CPM12-8P.10</b>	8-pole cable. Length 10 m. 8-pole M12 connector on one side, free wires on the other. For RS485 connection to HD35APS base unit.
<b>SWD06</b>	Mains power adapter 100-240 Vac / 6 Vdc - 1 A.
<b>HD35.03</b>	Plastic support for the removable installation of base unit, repeaters and data loggers in housing for indoor use.
<b>HD35.11K</b>	Pair of flanges made of anodized aluminium alloy for the fixed installation of base unit, repeaters and data loggers in housing for indoor use. Pin for padlock and padlock included.
<b>HD35.24W</b>	Flange for fixing to the wall the models HD35EDW... in waterproof housing.
<b>HD35-ANT</b>	Spare external RF antenna for the base units HD35AP... (except HD35APD-EXT) and the repeater HD35RE (not for HD35REW).
<b>HD35-ANT2</b>	Spare external RF antenna for the base unit HD35APD-EXT.
<b>HD35-ANT3</b>	Spare external RF antenna for the repeater HD35REW and the data loggers HD35EDW... with external antenna.
<b>HD35-BAT1</b>	3.7 V lithium ion rechargeable battery, capacity 2250 mA/h, 3-pole JST connector. For the base units HD35AP... and the repeater HD35RE.
<b>HD35-BAT2</b>	3.6 V lithium thionyl chloride (Li-SOCI <sub>2</sub> ) not rechargeable battery, size AA, 2-pole Molex 5264 connector. For the alarm module HD35ED ALM and the data loggers HD35ED....
<b>BAT-2013DB</b>	3.6 V lithium thionyl chloride (Li-SOCI <sub>2</sub> ) not rechargeable battery, size C, 2-pole Molex 5264 connector. For the repeater HD35REW and the data loggers HD35EDWK/4TC, HD35EDWH and HD35EDM...TC.
<b>HD2003.77/40</b>	Clamp to fix the waterproof housing to the 40 mm diameter mast.
<b>HD2003.71K</b>	40 mm diameter mast kit, height 2 m, in two pieces.
<b>HD2003.75</b>	Pointed grounding rod for 40 mm diameter mast.
<b>HD2003.78</b>	Flange for 40 mm diameter mast, to be fastened on the floor.
<b>HD2005.20</b>	Anodized aluminum tripod kit with adjustable legs for installing environmental sensors. It can be fixed on a flat base with screws or to the ground with pegs.
<b>HD9217TF1</b>	Protection shield from solar radiations for outdoor installation. For the HD35EDW... waterproof data loggers.
<b>HD32MT4.6</b>	Protection shield from solar radiations for outdoor installation. For the HD35EDM...TC waterproof data loggers.
